## START YOUNG

To train a child into good habits. There is no habit that will add so much to the good character, the general happiness and thorough contentment of a life as the good habit of saving. The best way to start this habit is by opening an account at this bank for the child. The child will become as interested in watching this account grow as it would be with a toy. This interest will harden into a habit and the habit into character. You can start an account for the child with as little as one dollar if you like.

We pay FOUR per cent. for a SIX MONTHS' deposit.
